

We are the in-house cabinetry division of McGarvey Custom Homes, manufacturing and installing **completely custom cabinetry** for all of their project needs and more.

We create cabinetry, built-ins,
wall details, custom doors, custom
furniture, and millwork.

Our mission is to serve as a reliable and custom manufacturer of cabinetry, furniture, and details for **high-end luxury** homes.

We believe in the value of original design, **quality craftsmanship**, and superior customer service.

WHY CHOOSE SOUTHLINKS?

We stand out from the rest by creating completely custom cabinetry, not factory manufactured. In our climate controlled workspace, **efficiency** is maximized through the use of a CNC machine which cuts raw materials precisely with little waste. Because everything we design and build for McGarvey is in-house, we typically operate with shorter lead times on full projects, replacement parts, and repairs.

See what's new in luxury living.
